This is such a beautiful game and the story is really interesting... unfortunately I have yet to play much of it because the game crashes about ten minutes in. As long as it doesn't crash, I highly recommend this! Hopefully there will come a day when it won't crash and I can give a proper review.. best 5 dollars ever spent. Great game, loved the ending. Simply awesome. I loooove Tower defense games, I got this one in a bundle i think I can't remember now i've given it a fair bit of time. after 10 hours of play I can't tell you how frustrated I am. Some of the "story" has typos, along with the fact that you can lose the gems you earn... If you click on an upgrade (on the menu screen) that isn't even available it will take the gems and not give you the upgrade (found this out first hand) Also when you click on the map at times to use the spells there are tower areas that you can "purchase" for gems to have those better spots? well yah that eats up your gems as well.. Personally I'm uninstalling I wouldn't recommend this tbh... It feels cheap and very wonky.. Game is great so far!. good content but no career games on shawman hill for the sd70 ace. cringe at its finest. It's really a shame that you can't remove games from your library...

I don't know what it is but it's a wiiiiide stretch to call it game....

Srsly how did this abomination of a Software get into the Steam Shop...

I don't even know how i got a copy of this... but at least i didn't pay anything for it.

I am seeing a lot of Negative reviews for this game lately, and I just don't see it. I was on the fence about this game for a long time, but finally picked it up and I have loved every minute of it so far. The campaign is beautifully done with amazingly animated and voice acted cutscenes with a very intriguing story.

If you enjoyed the old style RTS games, and you enjoy a good Sci-Fi story; you will love this game.. Great deal! way better if you get it on sale! having a mount at low level is really nice and the extra bag space also makes it easier to get crafting up.. first game i purchased <3. Good Gameplay
Spooky Jumpscares

A horror game about a meme is actually pretty good

It's also perfect for Halloween

I give this game a 10/10. pretty good but im too cheap to buy it. 10/10. Eschalon: Book One reminded me of the old PC games I grew up playing. It's a pretty simple game once you do a few test runs (hence my 40 hour play time it shouldn't take that long to beat). Once I figured out the ideal character build, the game was much easier. Trust me, the game is weighted toward a certain playstyle (my suggestion, make sure you have lockpicking and archery you'll thank me later). I didn't try magic but it seemed underwhelming in this game Melee and archery are definitely the go to skills on this one. Overall, it was a fun experience mixed with a bit of frustration and boredom, but I definitely recommend buying and trying it out.

PROS:

- Old school feel (and to a degree, difficulty)
- Graphics create a good atmosphere
- Every character has a unique portrait (take some tips Wasteland 2)
- Good music and sound effects
- Satisfying character progression
- Story is good enough to keep you interested
- Fairly open ended (you can go wherever you want and there are different results for some quests)

CONS:

- Walking is very slow (there is fast travel but it isn't always the most direct)
- Large empty areas
- Randomized loot chests (change on reload)
- Quite a few spelling errors
- Cheap fighting tactics required: Most fights, you'll be running in circles to make space then taking cheap shots (which miss frequently, even with high dexterity and archery). If you don't keep space, enemies will rip you to shreds and there are some enemies that permanently destroy your items if you melee them.
- Needing copious amounts of healing potions or hours of rest after most fights gets tedious.

. I love this game and the feeling of flying, but I think it's not using its full potential. I mean who else thinks this has HUGE multiplayer potential!. This game is amazing. If you are a fan of vaporwave and its aesthetics, you will enjoy this game. Although you will most likely get through it pretty quickly, I feel as though the ~8 hours the game will take is worth it.
